AIR-PAK DRYER SYSTEMS · SATISFACTION GUARANTEE

The Air-Pak 30-Day Guarantee.

If you're not completely satisfied with your Air-Pak dryer system, Dry Air Systems, Inc. will buy it back within 30 days of purchase, provided the conditions below are met.

30

DAY BUY-BACK

From the date of purchase. Complete satisfaction or we purchase it back.

CONDITIONS

What qualifies for the guarantee.

Five simple conditions keep the guarantee fair for everyone.

01

Sized to the compressor

Dryer correctly sized to the air compressor's maximum cubic feet per minute (CFM).

02

Sized at point of use

Dryer correctly sized at the point of use maximum cubic feet per minute (CFM).

03

Fully functional

Dryer fully functional as described in the Air-Pak Service Manual, "Basic Operation and Installation Mounting Instructions."

04

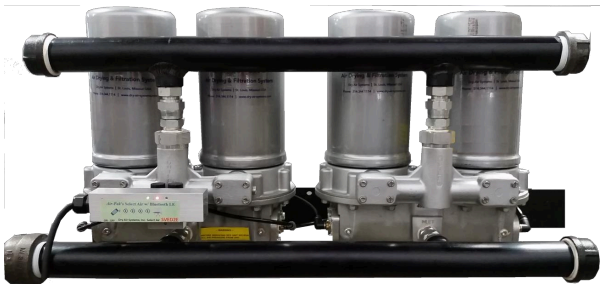

Clean unit

Dryer unit clean from excessive oil and/or contamination.

05

No visible damage

No visible damage to desiccant cartridges, aluminum castings, or electrical components (Micro Logic Timer, PLC, or pneumatic controllers).

AIR-PAK DRYER SYSTEMS

Need help sizing your dryer?

Our engineers will match an Air-Pak system to your compressor and point-of-use CFM, so you get it right the first time.

LINE CARD · DRY AIR SYSTEMS / FLUID POWER CONTROLS

Lines we carry. Systems we engineer.

REPRESENTED LINES · QUALITY COMPONENTS FROM TRUSTED MANUFACTURERS

Dry Air Systems
Innovator of new regenerative desiccant air dryers

Airtec Pneumatics
Valves, cylinders, air preparation, vacuum generation

Alkon Corporation
Valves, fittings, flow controls, full line of DOT products

American Cylinders
Round line aluminum and stainless cylinders

Anderson Fittings
Full line of brass and steel fittings

Canfield Industries
Reed switches, solenoid connectors, solenoid timers

Control Devices Inc.
ASME valves, compressor controls, drain actuators

Control Micro Systems
Custom-designed electronics boards and Bluetooth devices

Daughtridge Sales
Pressure and temperature gauges, switches, accessories

Dixon Boss
Valves and couplings from 1/8" to 8"

Master Pneumatic
Air filtration, treatment and injection lubrication

Memco
Miniature fittings

Mid-America Fittings
Brass and steel fittings

Peter Paul
Valves and valve operators

Shire Industries
Custom-designed and manufactured electronic boards and devices

Spartan Scientific
Valves and operators

Tescom Pressure Controls
High pressure regulators and valves

Thermal Transfer
Heat exchangers

SPECIFIC DESIGN ENGINEERING · ENGINEERED IN-HOUSE, TO YOUR SPEC

- **Complete CNC machining**
- **Pneumatic systems design**
- **Custom pneumatic designs**
- **Desiccant dryer systems**
- **Valve systems**
- **Control valves**
- **Miniature high pressure regulators**
  Open flow · Solenoid · Push button
